STATE OF TRADE

Bradstreet's Weekly Review of the Business Situation.

BUSINESS GOOD GENERALLY

Throughout the Country, Though in Some Branches There is Slight Dullness---The Woolen Outlook Good. Exports of Grain Phenomenal.

Special telegrams to Bradstreet's are again confirmatory of the analyses of the state of general trade made public during two preceding weeks, notwithstanding unduly optimistic outgivings from other sources. Advices from Memphis, New Orleans and Atlanta are of an improving tendency in general trade, although Baltimore, where job-bers feel the pulse of almost all southern mercantile communities, reports business dull, with almost unbroken stocks of dry goods, notions and clothing, only a fair trade in boots and shoes and groceries, and quite slow collections, owing ceries, and quite slow collections, owing to low prices for cotton and a tendency to hold it for an advance. Few southern discounts are making and extensions are more freely asked. At New Orleans general trade is still interfered with by low water in the Mississippi. Galves-ton wires that low prices for cotton have tended to retard all lines of busi-

At Boston, New York, Philadelphia, Pittsburgh and Cincinnati reports are in the main far more buoyant, although in the main far more buoyant, although at all points the outlook is regarded as good. Fall trade has ended, and holiday activity has begun. Leather and hides are very dull, but rubber is excited and higher on rumors of political trouble in Brazil, and manufacturers are running factories at full capacity. This is between seasons for woolen manufacturers, but the outlook for next spring is declared good. The volume of spring is declared good. The volume of dry goods sales has decreased. All lines of low grade cottons are affected by the weakness of prints, which are off dc on increasing stocks. Spring dress goods are in fair demand. Wool dress goods are in fair demand. Wool is quiet and lower, and cotton is to off on heavy crop inovement. Refined sugar prices have been cut 1-16c, but raw is still firm.

At the west there is relatively less complaint. Chicago admits a smaller volume, but claims to exceed last weeks in a few lines. St. Paul, Minneapolis, Milwaukee Omaha Kansag City and St.

in a few lines. St. Paul, Minneapolis, Milwaukee, Omaha, Kansas City and St. Louis make like reports, but most of them admit a notable decline in volume of trade within three weeks. Receipts of all grains, except wheat, have increased, and provisions are irregular with a weakening tendency, except for lard, at Cincinnati. Live cattle are of slow sale and firm only for best grades. Live hogs are about 5c lower. The feature at San Francisco is a heavy advance in wheat prices and decline in grain freight rates to the United Kingdom coincident with heavy arrivals of tonnage. Stocks with heavy arrivals of tonnage. Stocks are decreasing under free export move-ment and restricted shipments from the interior. Mercantile collections are quite irregular, and average slow and unsatisfactory oftener than otherwise as far as reported. Business failures in the United States number 238, against 205 last week and 151 this week last year. The total January 1 to date is 10,121, against 8,502 last year.

against 5,502 inst year.

The New York share market has been depressed by liquidation due to the bank failure in Boston and the shipment of funds there. This created some pressure in the New York money market. Rumored financial disturbance at Paris also. pressure in the New York money market. Rumored financial disturbance at Paris also exerts a repressing influence, and the market has been subject to bearish manipulation. While increases in the gross earnings of certain railroads and the declaration of the Pennsylvania dividend on a 6 per cent basis are favorably regarded, the speculative temper is dormant. Foreign exchange is higher in sympathy with the condition of money markets abroad, but small amounts of gold continue to come this way. Bank clearings totals for October are not satisfactory, being 6.2 per cent smaller than in October, 1890. Total clearings of forty-four cities for October amounted to \$5,361,596,041. New York city clearings fell off 7.9 per cent, and at cities other than New York the decline of the total was 3.2 per cent. For ten of the total was 3.2 per cent. For ten months the clearings total is \$45,483,-925,647, a decline of 8.8 per cent from ten months of 1890.

ten months of 1890.

Exports of wheat from the United States, both coasts, this week aggregate 3,820,000 bushels, nearly 500,000 bushels more than last week, due largely to added Pasitic coast shipments. The to added Pacific coast shipments. The weekly average is still about twice the average one and two years ago, and more than three times that in 1888 and 1887. Total exports for nineteen weeks (to November 5) equal 77,376,000 bushels (against 34,575,000 bushels (Montreal included) in a like portion of 1890, 35,543,000 bushels in 1889, 34, 366,000 bushels in 1888, and as a contract with 58 543,000 bushels in 1889, 40,366,000 bushels in 1888, and as compared with 58,883,000 bushels in 1887. Special cable and telegraphic advices enable Baarsthers to point out that the total stocks of wheat available, United States and Canada, affoat for and available in Europe November 1 were 22,200,000 bushels larger than on October 1 last, 42,301,000 bushels larger than to Novembe 1, 1880, and than on October 1 last, 42,491,000 bushels larger than on Novembe 1, 1889, and 24,523,000 bushels larger than on November 1, 1889. European and afloat stocks alone on the 1st inst. were 24,704,000 bushels larger than on November 1, 1830, and 17,544,000 bushels leavier than on November 1, 1830. In the United States and Canada stocks, November 1, were 17,700,000 larger than one year ago, 7,000,000 bushels more than two years ago.

In Teronto general trade is less active

one year ago, 1,000,000 busness more than two years ago.

In Teronto general trade is less active than expected, though dry goods are more active. The wheat movement in Ontario is slow. Barley is going abroad freely and ree is higher. Montreal reports favorable trade prospects, with fair activity in most lines, including a better demand for grain. Bank clearings at four Canadian cities aggregate \$21,054,758 this week, an increase of 10 per cent. compared with last week. The Dominion reports 43 business failures this week, against 37 last week and 37 this week last year. The total number January 1 to date is 1,557 against 1,389 last year.

Corry, Pennsylvania, National Bank Closed Saturday. CORRY, Pa., Nov. 8.—The greatest calamity that has yet befallen Corry was the closing yesterday forenoon of the doors of the Corry National Bank and its branch on North Center street. Both banks were closed by order of Bank Examiner Miller. When the report spread the streets became crowded, it being impossible for many to believe that the old and trusted First National that the old and trusted First Autonat Bank had been declared insolvent. The bank was organized in 1804, and its his-tory since then has been beyond re-proach. Few, if any, had the least ink-ling of its condition, consequently the

Bank Examiner Miller positively refuses to make any statement at present, and as President Allen and Cashier C. G. Harmon, are both prostrated by the shock it is impossible to get full particulars. It has been generally known, however, that the bank has been interested in, and assisted to a large extent several manufacturing interests here and elsewhere; also that the line of discounts they have been carrying is very large. These discounts were against people considered perfectly good, but owing to the stringency of money matters here the bank failed to realize on the paper just when it was realize on the paper just when it was most required.

Contacts with electric wires, railroad accidents, broken car and elevator cables, explosions of steam, natural gas and chemicals, poisons in adulterated food and district. and chemicals, poisons in additional food and drink, are a few; but all these daugers combined do not kill as rapidly as slow and sure consumption. The as slow and sure consumption. The death rate, however, from consumption death rate, however, from consumption is being yearly cut down since Dr. Pierce, of Buffalo, N. Y., has given to the world his celebrated "Golden Medical Discovery," a cure for consumption and throat and lung troubles that lead to consumption, if taken in time and given a fair trial. The time to cure consumption, which is really active to the consumption of the consumptio given a fair trial. The time to cure con-sumption (which is really nothing more nor less than lung scroinla), is in the first stages. A cough generally sounds the alarm, and you should take the "Discovery" at once. There is a tline when it is too late.

The stock market to-day showed some of its old time activity, but was leverish and unsettled from the opening to the close. The feature of the trading was the heavy demand from the shorts and the urgency of the buying. The demand slacked away before the first hour was out, and the market thereafter remained irregular and feverish, prices going back materially in most cases. There was some improvement in the final dealings, though the close was still heavy and active at close to the lowest figures.
